About Youth Diversion Projects

Now is an exciting time in the development of youth justice services and interventions in Ireland. The Youth Justice Strategy 2021 to 2027 brings with it more opportunities than ever to make a difference in the lives of young people, families and communities.

The vision of the Strategy is “Collaborating across all sectors of government and society in the development and delivery of opportunities for children and young people, to harness support in their families and communities in order to strengthen their capacities to live free from crime and harm”. The Strategy focuses on maximising the opportunities for promoting positive behaviour change in young people who are at risk of coming into contact with the youth justice system. The Strategy is grounded in the real-life experiences of these young people in Ireland, having been developed following a comprehensive process of consultation with a broad range of stakeholders invested in the lives of at-risk young people, their families and communities. It takes a rights-based approach to working with young people at risk, and is underpinned by a “no wrong door” principle outlining a commitment to child centred wrap around services. The Strategy emphasises the development of evidence informed programmes, interventions and supports, across all areas of the youth justice system including court processes, detention and legislation, as well as early intervention and diversion measures.

The Strategy prioritises implementation of measure to enhance the existing Youth Diversion Projects (YDPs). YDPs are community based, multi-agency, youth crime prevention initiatives which primarily seek to divert young people involved or at risk of becoming involved in criminal/anti-social behaviour away from the criminal justice system by providing suitable activities to facilitate personal development, promote civic responsibility and improve long-term employability prospects. A significant development is the expansion of YDPs, ensuring full geographical coverage, so that every young person who requires a service, will have access to it. In addition, comes the development of a range of more specialised interventions integrated into to the YDPs, including initiatives for Early Intervention, Family Support and working with harder-to-reach children and young people. It is as a result of these developments that the current vacancies arise in Foróige YDPs.

All interventions delivered through Foróige YDPs, are needs led, evidence based and outcomes focused with a view to reducing the likelihood of a young person offending or re-offending. As such, the interventions vary from project to project and initiative to initiative, based on the individual needs and circumstances of the young people, their families and their communities. Interventions can take place in both group and one to one settings, on site in a project premises, or reaching out to the community and other suitable spaces.
